

## Litter Vacuums

### Electric All-Terrain Litter Vacuum LR50

This unique, all-terrain battery-powered litter vacuum will cater to customers who favor eco-efficient solutions for their fleet. Can be charged using Level 2 SAE J1772 at 6kw, or 120 V wall socket!

**From concrete to grass, the LR50 Vocational Electric Vehicle (VEV) can tackle all types of urban terrain with ease**

- Parks and grass areas
- Sidewalks
- Bike and pedestrian lanes
- Parking lots
- Curb side
- Alleys
- Pathways
- Alongside buildings

### Zero Emission

If used 20 hours per week, (1000 hrs./yr.) each LR50 electric will reduce CO2 emissions by approximately 17 tons / year

## Litter Vacuums

### Portable Litter Vacuum LP61-G

The Small Vacuum Everyone Should Have

LP61-G is the ideal unit for hard-to-reach soiled areas such as windblown trash at landfill and transfer station fence lines, parking lots, parks, cycling trails and industrial sites. This machine is compact, lightweight, and easy to use. Available either skid mount or trailer mount, the LP61-G is 5 times more efficient than manual litter picking.

### LP61-G AT A GLANCE

- Vanguard 400 engine – efficient and reliable
- 2200 CFM vacuum rating – industry leading vacuum power
- Straight-through suction system – compacts litter 2:1 ratio
- Bottom-mounted fan – no fan to jam
- Optional 15 ft. (4.6 m) or 25 ft. (7.6 m) hose extension – for greater reach
