

Tactical Lockers

- Whether you're looking to store weapons, gear, or personal equipment, Dasco and Datum offer a range of durable, customizable lockers designed for security and functionality. From fully welded steel construction to modular customization, these lockers meet the rigorous demands of military, law enforcement, and tactical storage needs.

Features

- **Heavy-Duty Construction:** Made from high-gauge, fully-welded steel for maximum durability and long-lasting use.
- **Secure Locking Systems:** Multi-point locking mechanisms ensure enhanced security, with optional padlock hasps.
- **Customizable Interiors:** Modular shelves, hooks, and storage components to accommodate weapons, gear, and personal equipment.
- **Ventilated Doors:** Perforated or louvered doors allow for visual inspection and airflow, ideal for drying wet gear.
- **Space-Saving Designs:** Bi-fold doors, swing gates, and stackable configurations optimize storage in limited spaces.
- **Powder-Coated Finish:** Available in multiple colors to match your armory or facility's aesthetics.

Benefits

- **Maximized Storage:** Securely store a variety of items in customizable configurations tailored to your needs.
- **Improved Organization:** Modular components help keep weapons, gear, and personal items neatly arranged and easy to access.
- **Enhanced Security:** Robust locking systems provide peace of mind by securing high-value items and restricted-access gear.
- **Space Efficiency:** Save valuable floor space with bi-fold and swing-gate door designs.
- **Durability & Longevity:** Built with high-quality materials to withstand tough environments and frequent use.
